Distribution appropriateness

These distribution conditions are designed to ensure that all channels capture and record the members objectives, needs and financial situation through the sales process and lead to the recommendation of this product as the most suitable for members according to the key attributes of the product listed and described in this determination. These obligations are also considered appropriate as the target market is wide and the issuer has distributed this product using these methods, with limited risk to members.

Reviewing this document

This TMD will be reviewed within 1 year from the effective date and 1 year after the initial review and each subsequent review to ensure it remains appropriate.

We will also review this document should any review triggers occur that would reasonably suggest that the TMD is no longer appropriate. The occurrence of any one of the following trigger events will result in an immediate review of this TMD:

- a dealing of the product to members, made through any distribution channel, that is not consistent with this target market determination occurs and results in a significant material impact to a member or material impact to numerous members.
- material changes to the product or the terms and conditions of the product occurs which would cause the TMD to no longer be appropriate.
- material changes to the regulatory environment.

A quarterly review will be conducted of the following trigger events to determine if the account performance, usage, or complaint information indicates that a review of this TMD is required. These triggers include:

- a material and/or unexpected increase in the volume, nature and/or significance of complaints is received in any quarter from members in relation to their purchase or use of the product that reasonably suggests that the TMD is no longer appropriate.
- changes to the overall product performance, as determined by the issuer, that suggests that the product is no longer appropriate to the target market, including but not limited to an unexpected change in the sales volumes in any or all of the distribution channels, a material change in the volumes of product closures and/or product switches or an unexpected increase in associated fee income.
- feedback received from any of the distribution channels for this product.
